Summary

4th year IT student passionate about web development and user-centered design. Experienced in building responsive web applications through collaborative projects, hackathons, and team-based development. Proven leadership skills through capstone, group projects, and hackathons. Currently expanding my skills in Data Analytics through continuous learning via workshops and certifications.

Education

ICCT Colleges, Bachelor of Science in Information Technology

Expected Graduation: May 2027

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Bootstrap | **Backend:** Node.js, Express.js, Spring Boot, MongoDB, MySQL | **Tools:** Git, GitHub, VS Code, Figma | **Data & Analytics:** Data Analysis, SQL, Python, Data Visualization

Soft Skills

- Leadership - Took initiative on project tasks and supported teammates
- Team Collaboration - Worked with team members on capstone project
- Problem Solving - Debugged issues during full-stack development
- Adaptability - Quickly learned React, Tailwind, and WordPress
- Continuous Learning - Pursued workshops, certifications, and personal projects

Experience

WordPress Workshop - ICCT Colleges

July 2024

- Completed hands-on training in WordPress fundamentals
- Built and customized functional website during workshop
- Learned theme customization, plugin integration, and content management

WattsUp: EV Charging Station Finder (Personal Project)

April 2026

- Built a no-login web app helping EV owners locate public charging stations within 20km
- Implemented offline mode with localStorage caching for reliable off-grid access
- Designed interactive map with custom markers and one-tap Google Maps directions
- Tech: React, Leaflet, Tailwind CSS, OpenChargeMap API, Vercel, Render

eGuide ICCT: Centralized School Document Procedure Guide System - ICCT Colleges

January - June 2026

- Built a web application that centralizes school requirements, procedures, and announcements for students and administrators
- Designed role-based access control (Admin/Student) for secure document management
- Implemented student features including document viewing, saving, and progress tracking
- Tech: MongoDB, Express, React, Node.js, Tailwind CSS, Cloudinary API, Brevo API, Vercel, Render

GoGreen: Eco-Travel & Budget Tracker Mobile App - DevKada Hackathon

May 2026

- Built a mobile application promoting sustainable travel (walking, biking, transit, EV)
- Integrated GTFS public transit data for real-time bus and train route information
- Implemented budget tracker to monitor eco-spending on sustainable trips
- Tech: React Native, Node.js, Express, MongoDB, GTFS, OpenChargeMap API, OpenStreetMap API, APK, Render

Cloud 101: Building Your Own Cloud Storage Using Raspberry Pi - ICCT Colleges

June 2026

- Participated in a hands-on workshop on building a private cloud storage using Raspberry Pi
- Learned server configuration, network setup, and cloud storage deployment fundamentals

Certifications

- WordPress Workshop Certificate - ICCT Colleges (2024)
- AWS AI Practitioner Challenge - Udacity (2026)
- Responsive Web Design – freeCodeCamp (2026)
- CodeKada Hackathon - DevKada (2026)
- DataCamp Associate Data Analyst - DataCamp (2026)
- Gen AI to Z: A Career Summit in an AI-Driven World - Vibe Coders PH (2026)
